## B. Updates on Identified Priority Strategies

- 1 Simplified Inmates Record System (SIRS) Project - The program is finished and was tested in the San Mateo Jail. Formal turn-over to the Bureau of Jail Management and Penology for its use nationwide is scheduled before the month of February ends. Erwin Zabala is overseeing the project.
- 2 Pre-Trial Release Act - HLAF in collaboration with the Project Management Office of the Supreme Court is currently conducting a study to determine the possibility of expanding the scope of recognizance. The survey of materials, foreign and local on the subject was already completed. For the months of October and November interviews were conducted in Cebu, Davao Caloocan, Quezon City and Manila. Except for a few personnel here in Manila the interview phase is almost done. Focus group discussions (FGD) will be conducted in the months of February and March to validate the initial findings of the research. The result of the FGDs will be incorporated in the final paper that is due at the end of March.
- 3 Update on the Livelihood and Rehabilitation Program  
Malayang Kabuhayan – our livelihood project is underway. Margaret Castillejo, a former inmate who was recently released is the project

coordinator. They prepare for and deliver food to Molave and QC Female Dormitory. Attached is the detailed report on the project.

Linis – Buyon Project - This project is completed. We have distributed 30 toilet bowls, 10 each in Quezon City, Manila and Caloocan City jails. Attached is the report on the project.
